MEETING PLANNER

ALGOL

Name created by organizer prior to making schedule will appear here.

Clicking minus will minimize screen. Clicking the square will fullscreen/resize screen. X will close window. These are features of the browser and not scheduler program.

When hovering over a timeslot, a color will appear based on the availability of the slot. If the slot turns green then the slot is free to schedule a meeting. If the slot turns red then it is a filled timeslot that may be cancelled (participant's own meeting or organizer) and if the timeslot appears gray then it is filled and cannot be cancelled (the participant viewing a meeting scheduled by another participant). Slots that are gray with no writing were slots made unavailable by organizer. Choosing a free slot will prompt participant/organizer to input name to fill spot.
